

**LABORATORY TEST REPORT**

|                    |                                      |               |                        |
|--------------------|--------------------------------------|---------------|------------------------|
| Name               | : Baby. PRASANNA LAKSHMI             |               |                        |
| Sample ID          | : A0933985                           |               |                        |
| Age/Gender         | : 9 Years/Female                     | Reg. No       | : 0312502070054        |
| Referred by        | : Dr. SELF                           | SPP Code      | : SPL-CV-172           |
| Referring Customer | : V CARE MEDICAL DIAGNOSTICS         | Collected On  | : 07-Feb-2025 06:49 PM |
| Primary Sample     | : Whole Blood                        | Received On   | : 07-Feb-2025 10:33 PM |
| Sample Tested In   | : Whole Blood EDTA                   | Reported On   | : 07-Feb-2025 11:25 PM |
| Client Address     | : Kimtee colony ,Gokul Nagar,Tarnaka | Report Status | : Final Report         |

**HAEMATOLOGY**

| Test Name | Results | Units | Biological Reference Interval |
|-----------|---------|-------|-------------------------------|
|-----------|---------|-------|-------------------------------|

**Complete Blood Picture(CBP)**

|                                                                                                                                    |             |                     |           |
|------------------------------------------------------------------------------------------------------------------------------------|-------------|---------------------|-----------|
|  Haemoglobin (Hb)<br>(Method: Cynmeth Method)       | 12.5        | g/dL                | 11.5-15.5 |
|  Haematocrit (HCT)<br>(Method: Calculated)          | 37.9        | %                   | 35-45     |
|  RBC Count<br>(Method: Cell Impedance)              | 4.19        | 10 <sup>12</sup> /L | 3.8-4.8   |
|  MCV<br>(Method: Calculated)                        | 91          | fl                  | 77-95     |
|  MCH<br>(Method: Calculated)                       | 29.8        | pg                  | 25-33     |
|  MCHC<br>(Method: Calculated)                     | 32.9        | g/dL                | 31-37     |
|  RDW-CV<br>(Method: Calculated)                   | <b>14.2</b> | %                   | 11.6-14.0 |
|  Platelet Count (PLT)<br>(Method: Cell Impedance) | 201         | 10 <sup>9</sup> /L  | 170-450   |
|  Total WBC Count<br>(Method: Impedance)           | 6.1         | 10 <sup>9</sup> /L  | 5.0-13.0  |

**Differential Leucocyte Count (DC)**

|                                                                                                                                      |                                           |                    |          |
|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|--------------------|----------|
|  Neutrophils<br>(Method: Cell Impedance)            | 57                                        | %                  | 43-64    |
|  Lymphocytes<br>(Method: Cell Impedance)            | 36                                        | %                  | 25-48    |
|  Monocytes<br>(Method: Microscopy)                  | 05                                        | %                  | 0-9      |
|  Eosinophils<br>(Method: Microscopy)                | 02                                        | %                  | 0-7      |
|  Basophils<br>(Method: Microscopy)                  | 00                                        | %                  | 0-2      |
|  Absolute Neutrophils Count<br>(Method: Impedance)  | 3.48                                      | 10 <sup>9</sup> /L | 1.9-8.6  |
|  Absolute Lymphocyte Count<br>(Method: Impedance)   | 2.2                                       | 10 <sup>9</sup> /L | 1.3-6.6  |
|  Absolute Monocyte Count<br>(Method: Calculated)    | 0.31                                      | 10 <sup>9</sup> /L | 0.0- 1.2 |
|  Absolute Eosinophils Count<br>(Method: Calculated) | 0.12                                      | 10 <sup>9</sup> /L | 0.0-1.0  |
|  Absolute Basophil ICount<br>(Method: Calculated)   | 0.00                                      | 10 <sup>9</sup> /L | 0.0-0.3  |
|  Morphology<br>(Method: PAPS Staining )             | Anisocytosis with Normocytic normochromic |                    |          |
